# Labour NOT Laborious

## Dear Labour Lovers,

The much awaited Labour Not laborious conclave proposes to envisage the nuances of labour and would aim to make practitioners feel that managing labour is not laborious.

A 2 days laborious but laudable programme is being planned on the 3rd & 4th of August 2024 where eminent national & international faculties like Dr Justus Hofmeyr from South Africa, Dr Sabaratnam Arul Kumaran from UK Dr. Aparna Sridhar from USA and many more will portray their academic deliberations.

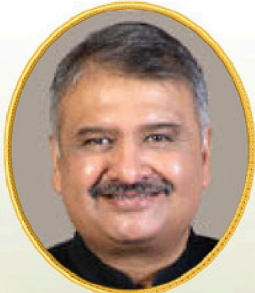

The ever charming FOGSI experts led by Dr Jaydeep Tank would be a part of this mammoth academia. Just to add practical touch, a meaningful day of workshops are planned on 2nd August 2024. Novel events here would include mighty orations , dependable debates , short shots , power packed lectures with innovative interactions .

Chennai has proved its point by the high level of academic acumen and this conclave is no exception .

Please come and get energised, enthralled and emulated.

Thanks with regards  
Organizing Team
